ComfortNet Communicating Control System

The Goodman® brand ComfortNet digital control works with Goodman brand ECM-based furnaces and air handlers and 16 & 18 SEER two-stage air conditioners and heat pumps.

- Automatic system configuration ensures system is working at its maximum efficiency
- Exclusive "Call for Service" diagnostic indicator
- Large 12 square-inch display with extra-large touch keys, 10-second backlight, and large easy-to-read character sizes
- Unique color-coded temperature touch keys for quick adjustments
- Clean, uncluttered touchscreen display provides easier navigation
- Intuitive menu-driven programming with audio beep prompt
- Simplified dual-fuel compatibility without the need for extra controls
- Built-in dehumidification controls
- Your choice of seven-day programmable or non-programmable functionality
- Programmable fan and comfort circulating fan
- Selectable energy management recovery program
- Remote outdoor temperature sensor
- Hard-wired with battery back-up
- Active system diagnostics —All control board error codes are mirrored at the display
